MedAllies Direct Solutions v3.4

Developer organization name:	MedAllies
Date the product was certified:	4/3/2017
Unique certification number:	15.04.04.1887.MedA.34.00.0.23170403
Certification criteria to which the product has been certified:	170.315(d)(1-3,12-13); (g)(4-5); (h)(2)
CQMs to which the product has been certified:	None
Any additional software the certified product relied upon to demonstrate its compliance with the certification:	None
ONC Disclaimer:	"This Health IT Module is compliant with the ONC Certification Criteria for Health IT and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services."

The costs and type of services offered are either one-time or ongoing costs indicated as follows:

a) EHR Vendor
- One-Time Costs – Implementation and Certification Costs
- On-Going (Annual) Costs – Per Provider annually

b) Ambulatory / Hospital Provider Organization
- One-Time Costs – Implementation Costs
- On-Going (Annual) Costs – Total Active Medical Staff (Per Provider Cost Annually) or Total Hospital Bed Size (Per Bed Size Cost Annually)

c) PHR Vendor
- One-Time Costs – Certification Costs
- On-Going (Annual) Costs – Per End User annually

Technical Considerations:

- MedAllies Direct Solutions™ provides a secure network transport for clinical messages. The end user will need a Direct-enabled EHR or similar edge system to generate, send and receive messages.
- The edge system must support either Mutual Authentication TLS for SOAP/ XDR connections, or STARTTLS for SMTP connections.

Contractual Considerations:
- We allow message exchange only between HISPs whose Trust Anchor is included in the Direct Trust Accredited Trust Bundle.
